Today millions of Americans have a very **SERIOUS PROBLEM** with **SNORING!** You may have seen the man with the Jet plane type mask in bed! Can you rollover with that mask or must you sleep only on your back. I am told that the C- Pac units cost \$150. Plus they need a cleaning unit for another \$100. That's \$250!

But wait I have the Solution for you and your spouse. That was given to me by a Health Industry Engineer!

If your spouse **SNORES** like a Freight Train coming thru your bedroom every night. Then I am going to **SAVE YOUR LIFE AND YOUR WIFES** sleeping habits.. Here is a **Revolutionary New Product** for those suffering from **Chronic Snoring**. Here is this fellows wife using the pillow to cover her ears!

First.....

Who is Thomas Catanese & Co?

Let me present my 35 years of Industry Credentials. I am a National Convention & Motivational Speaker with over 100 Nat. Speaking Programs presented.

Take a ride on this link:

***I am America's Gift Basket & Gift Design Godfather
& Fund Raising Expert & Business Consultant***

I have created two Roll Royce Convertible gifts plus many Hollywood Celebrity Fantasy Gifts.

**My friend & his wife had attended one of my SAVE
OUR CHILDREN'S FUTURE Seminar's presented by
the local Teacher's & Mother's Club back in 2009.**

**Last month this fellow called to tell me that my Anti-
Drug Seminar back in 2009 had saved his two young
pre-teen daughters from illegal drugs at school. He
said that half of the kids in 7th grade were already
using drugs!**

**He said, Tom your Seminar gave my wife and I the
tools and concepts we needed to Save Our Children
from Drugs.**

**He wanted to do something special for me since the
Obama's IRS took my 501 C 3 Non-Profit status away
from me! Because of that I could no longer claim it or
solicit funding for SOCF.**

**Now I had to simply ask for donation & funding
support! So now I have something to offer you that
will have much more Value to you then \$15!**

I have designed a New and Revolutionary Snore Solution to help people with your problem of Snoring.

Yes, I Snore. Like HELL! Plus, I felt tired all the time. I denied it for a while, like most men do. Then my wife pretty much forced me to look into the C-Pac breathing mask to cure my snoring. I hated the thought of it. I hated the thought of setting it up and the noise, along with the obvious uncomfortable restriction, and the cost and the cleaning of the unit.

But now I know all about Snore No More©!
And I want to share this Copyrighted Information with you. If I can solve your SNORING problem for the rest of your Life...is it worth the \$15 donation to SOCF?... Plus a Money Back offer! Let's compare, \$250 for a C-Pac and steam cleaner. That's \$250 vs \$15 - hey, I'm not talking about a month or a year...I am speaking of the rest of your life! And wait...If it does not work for you I will refund your \$15 back to you. It has been one month now since I last SNORED in our bedroom.

My wife had been praying that I would find a solution! And I did!

SNORE NO MORE© SNORE NO MORE©

So let me address your question about where is the \$15 dollars going?

The money is going to:

SAVE OUR CHILDRENS FUTURE.

Since 2009, I have spent over \$8,000 to support SOCF! Send me the \$15 and I will e-mail you the 9 page instructions, so that you can solve your Snoring problem. Once I receive your check for \$15 I will forward the nine page download to you so you can share this information with your family!

Make check out to:

Sad Stories

Stephanie Thompson, the mother of the boy killed in a hail of bullets as he played in their neighborhood. He is the youngest victim 5-3 ft of a bloody 2008 in Camden.

'I watched my baby get shot'

By Dan Lieberman

INQUIRER STAFF WRITERS

When the shots began, Stephanie Thompson ran around the corner to find a man firing in the middle of the street and her 4-year-old son, Brandon, running up the sidewalk toward her. Thompson said the gunman, a 20-year-old she recognized from the neighborhood, looked her "dead in the face" before firing the shot that hit Brandon in the head. "I watched my baby get shot," Thompson said yesterday. "I couldn't get to him fast enough." Brandon died instantly, authorities said, in his mother's arms.

He had blood coming from everywhere. I just held him and told him to get up, but he wouldn't get up," Thompson said. "He was only 4. And he was trying to run to his mommy."

Brandon became Camden's 36th and youngest homicide victim of the year. Even in a city accustomed to violence, Monday's shoot-out — in the late afternoon after a beautiful summer day on a street filled with children — seemed particularly heinous. "I told my kids all my time: Keep your kids where you sit," said Jacque Pierce, See **SHOOTING** on A16

Brandon Thompson, 26th victim of 2008.

Early warning: The day before the shooting, the boy's mother reported a man riding a bicycle carrying a gun. ABB

Villanova professor faces drug charges

Edward R. Ritter was charged with selling marijuana to undercover police officers.

Faculty and students of Villanova University were stunned yesterday by the arrest of a well-liked chemical engineering professor who was charged with selling marijuana to undercover police officers.

Authorities twice bought drugs from 48-year-old Edward R. Ritter and later found 19 bags of marijuana in his Upper Providence Township home, Montgomery County District Attorney Risa Vetri Ferman said yesterday.

Ritter was charged Thursday with possession of marijuana, possession of drug paraphernalia, and possession of marijuana with intent to deliver. Only the third count is a felony. Ritter was freed on bond.

News of the arrest caught the school by surprise. An en-

gineering professor at Villanova who declined to be identified described Ritter as a "quiet" man who enjoyed a good reputation at the school.

"I never saw anything like this coming," the professor said.

Few faculty were at work yesterday at the Catholic university because it was Good Friday. But those who were in the engineering department talked about Ritter's arrest with shock.

Ferman said her office was investigating whether any drugs were sold by Ritter on campus.

Police say they found both marijuana and drug paraphernalia at Ritter's home.

Ritter could not be reached at his campus office yesterday. His current status at Villanova was not immediately available.

Many Mothers ask me why did I got involved with this Anti-Drug program. Above is the reason WHY! In 2009 the front page of the Phila. Inq Newspaper ran the story above! This poor young girl's 5 year old child was shot in the head five times in her front yard in Camden, NJ. A mad Drug seller came by the Mothers House with a gun. The child's Mother had told the police that he was selling drugs on her street. He wanted to get even with her! He came up to the child not more than 15 ft from his Mother and shoot this poor little boy in the head. When his Mother picked him up... he was bleeding from his ears, his nose, his eyes and his mouth. He died in her arms. That's what drug dealers do, they shot this poor little child.

That is why I founded, SAVE OUR CHILDRENS FUTURE! **So where is the \$15 going?** To cover my website cost, my phone cost, my mail cost. Plus my other expenses that help keep SOCF going!

Sincerely Yours,
Tom Catanese

Do you know what a drug habit looks like? Here is a five foot gorilla on my shoulder

This is what a Cigarette Habit looks like!

This is what a HARD Drug habit looks like!

Once you get hooked it will take you 5 to 7 years to get out of the deep ditch that you are in. Many people think...I will not get hooked...If they only knew! Once you take drugs, it gets into your system!

Here are a few before and after pics of people who could not stop with Meth! Once you try meth, you are hooked! These people were good looking before they started using drugs!

Can you help me with a \$15 donation? You may save someones life!

Dear Tom,

For the last 12 months my wife has been hounding me about getting a C-Pac unit with cleaner...hey big bucks like \$200. She said if you don't get it then you can sleep in our spare bedroom. She said, I can't put up with your snoring anymore. Then I got your email about Snore No More! I said to myself for \$15 bucks what can I lose. So I sent the \$15. That was two weeks ago...my wife said, "HONEY where did you get the idea for that solution! It works like a miracle. Hey...Tom you saved my marriage. Thanks.

Larry Sutton, Scranton

Dear Tom

My wife tells me I snore like a freight train...She has moved to our other bedroom...It's that bad. She stuffs cotton balls in her ears and closes the door and sometimes still hears me. You know that I have been a client of yours since 1993. So when I got your email I said, it must work if Tom is standing behind it with a money back offer! the instructions came in...they were easy to follow and the first night I had a small problem...but I solved the problem and now it works like a charm now. I don't know how guys put up with these C things? Plus they are not cheap. You look like a jet pilot. Hey thanks, and my wife thanks you also. It was the best \$15 I ever spent.

Jack Williams, New Orleans

To: Thomas Catanese & Co.

Dear Tommy

This is really funny...I snore big time! But so does my Wife! We both snore. When I got your E-mail I showed it to her...She said, baby if this snoring thing works and we can stop snoring problem \$15 is a drop in the bucket. The solution would be worth \$100. And he only wants \$15. Well we sent off a check to you. You e-mailed us the solution and boy did it work. Now no one snores in our home now. It's like a miracle!

Dear Mr. C

My wife wants to THANK YOU for saving her life and mine! I had to move to another room so she could get a good night's sleep. When I first saw your email my first thought was this is not going to work...but low and behold it really did do the right job. We are back sleeping in the same bed again. You came up with a way to stop people from snoring like HELL!

Thanks,

George Ott
